

# NEUTRONLUB

THE BEST HI-TECH FLUID & COMPOUNDS - USA

## NEUTRON 932 FG

### Food Grade Chain & Cable Lubricant

Neutron 932 FG is Fully Synthetic Food Grade, Non-Toxic Chain & Cable Lubricants are formulated with the use of approved synthetic fluids for maximum chemical and thermal stability. These modern fluids are fortified with the newest developments in food grade additive packages to create superior lubricating film strengths, and maximum anti-wear protection. Neutron 932 FG has an added tackifier for use where longer adhesion is required. The rust and corrosion properties of these oils make them highly effective as protective coatings on equipment located in wet or humid atmospheres

- Non-foaming
- Power reduction
- Extended drain intervals
- High VI ratings
- Leakage reduction
- Reduced operating temperatures
- Rust and corrosion protection
- Maximum anti-wear
